GREENWAYS PRODUCT – The portuguese context

Greeways – The Portuguese National Network

The fall of the Entre os Rios Bridge in 2001 made the public institutions aware of the problem of abandoned infrastructure.

Greeways – The Portuguese National Network

Today there is a set of greenways that are starting to settle in the territory due to the effort of the REFER, municipalities, CIM's and other regional governments, that have invested in the construction, maintenance and promotion of these infrastructures.

• EcoTrails

- REFER created a National EcoTrail Plan in 2001, with a view to redeveloping and reusing the railway lines and corridors that were not in use in some parts of Northern and Central Portugal and in the Alentejo region.
- The plan was implemented on the basis of contractual agreements with the municipalities through which these deactivated lines and trails pass. REFER conducted preliminary studies for landscaping projects, which subsequently served as the basis for the projects that developed each of the ecotrails.
- This entire experiment included the creation and registration of a National and European Brand (ECOPISTAS). Moreover, REFER also became a member of the European Greenways Association (EGWA)

• Ecotrails in use -December 2009

- Rio Minho EcoTrail
- Famalicão Branch Line EcoTrail
- Guimarães -Fafe EcoTrail
- Corgo EcoTrail
- Sabor EcoTrail
- Vouga EcoTrail
- Dão EcoTrail
- Mora EcoTrail
- Montado - Montemor-o-Novo EcoTrail
 - Since last November 2009, INVESFER had the management responsibility for the ECOTRAILS NATIONAL PLAN

Greenways – Touristic Internet Portals

With the recent expansion of cycle-tourism in Portugal and the increasing demand for the use of greenways led to the construction of private websites providing information regarding greenways, and selling services

What started as home made web-site just with basic information about the greenways is now becoming a business selling touristic guides, renting bikes and supporting other recreational activities.

The screenshot shows the website www.ciclovias.pt in an Internet Explorer browser. The page features a green and white color scheme. At the top left, there is a Facebook icon. The main header area contains a large green box with a white bicycle icon and the word "CICLOVIA" in white. To the right of this icon, the number "1.633,172" is displayed in large green font, followed by text indicating the total kilometers of greenways and ecovias in Portugal as of May 8, 2013. Below this, there is a navigation menu with buttons for "Início", "Downloads", "Fotogalerias", "Contactos", and "Sobre".

Madrid to Lisbon MTB

Crossing from Madrid, the capital city of Spain, to Lisbon, capital of Portugal in 15 days, finishing in Roca Cape - the western point of Europe!

1200km of off-road across forest tracks, gravel roads and steep single tracks over the highest slopes across the Iberian Peninsula until reaching the sea side, with nice cliffs over the Atlantic Ocean.

Always riding across very isolated and peaceful landscape and in self sufficiency, this is a spectacular MTBike traverse like no other in Europe!
