Vías verdes / ecopistas

Características comunes:

- ✓ **no motorizadas**
- ✓ **accesibilidad** para todo tipo de usuarios, incluyendo personas con movilidad reducida.
- ✓ **Facilidad de uso, seguridad y continuidad.**
- ✓ Respeto por el medio ambiente natural, cultural, histórico y humano de las zonas que se atraviesan

Vías verdes

Infraestructuras
preexistentes:

- **Vías de ferrocarril abandonadas,**
- **Caminos de canal,**
- Otros itinerarios cerrados al tráfico motorizado

Movilidad cotidiana,
turismo activo, ocio
saludable, deporte y
ejercicio físico en medio
urbano o rural

Infraestructura que facilita el acceso

Reacondicionamiento de puentes ferroviarios

Infraestructura que facilita el acceso

Túneles

Señalización

Rehabilitación de estaciones ferroviarias en desuso para instalar servicios

Innumerables ejemplos en Europa.

Vías verdes: un valor añadido para el turismo sostenible

Pendientes inferiores al 3%, trazados rectilíneos y amplias curvas.

Acceso excepcional y respetuoso a la naturaleza, al discurrir por infraestructuras pre-existentes, integradas en el paisaje, que permiten recorridos por el paisaje, la historia, la cultura y el pasado de Europa.

Vías verdes / Ecopistas: infraestructuras ideales para el cicloturismo

**Cualquiera que sea la edad y condición física;
para ir con la familia, amigos o individualmente.
Las vías verdes son ideales para andar o ir en
bicicleta, de forma segura y accesible.**

GreenWays4tour

European Greenways for Tourism
 Greenways are recreational routes reserved exclusively for non-motorised purposes, designed as a privileged space which enhances both the environment and quality of life of the surrounding area (Declaration of Lille, September 2000).

They have an essential characteristic:
 • Ease of access: their design, either for use on foot or on a bicycle, allow their use by all types of users, including mobility-impaired people.

• Safety: due to their separation from roads, and to appropriate signage at the intersections.

• Certified meeting suitable solutions for physical activities and healthy lifestyle habits.

• Respect for the environment along Greenways and encouragement to respect the same.

Greenways provide facilities based on the characteristics and building of the path and routes and trails, such as shared vehicle stations and lock storage houses. These facilities also take account of other general amenities: benches, picnic tables, toilets... They ensure that users can use them safely.

Greenways:
 • Improve communication and non-motorised tourism in Europe. Activities of sustainable tourism through European Greenways are currently concentrated in 2019th countries.

• Provide shelter and more balanced ways of use and respect relating to congestion and the pollution of sites.

• Promote land development, active tourism and local employment among citizens.

• Encourage a more human and civil relationship among citizens.

• Bring Europeans closer to both their natural and cultural environment.

www.greenways4tour.org

Logo: EDRA encourages all promoters of Greenways to take care in their activities to spread in Europe the concept of greenways so that they can be recognized as independent infrastructures by most tourists in Europe and contribute to a better quality of life for its citizens.

The European Greenways Observatory
 A greenway is a stand alone route for non-motorized traffic. Developed with the following objectives: to integrate facilities and increase environmental value and quality of life. Greenways encompass the following characteristics: suitability of width, slope and surface to allow secure appropriate use for a wide range of users including mobility-impaired people. Greenways are often located on old railways, on footpaths, Roman roadways or old pilgrimage ways (Declaration of Lille, September 2000).

EDRA is a consultancy and inventory platform for greenways. Its objective is to record all possible greenways in Europe in order to provide a useful database for the public and associations which are working to create or promote these infrastructures.

Greenways Product

Del “Recurso Turístico” al “Producto Turístico”

Greenways
product

*from “Tourism Resource”
to “Tourism Product”*

Greenway product is an EU-funded project, the main goal of which is to stimulate the creation of a new tourism product, “Greenways of Europe”, helping to establish, promote and market the tourism offer of European Greenways.

www.visitgreenways.org

Project co-financed by the Competitiveness and Innovation
Framework Programme of the European Union

Greenways Outdoor

El objetivo es la creación y promoción transnacional de producto turístico de aire libre vinculado a las Vías Verdes europeas y la mejora de las capacidades de las PYMEs localizadas en su entorno. La finalidad es que estas empresas puedan adaptar sus servicios a las demandas de los clientes y ser más competitivas.

Greenways Outdoor

ASSOCIATION EUROPEENNE DES VOIES VERTES
EUROPEAN GREENWAYS ASSOCIATION
ASOCIACIÓN EUROPEA DE VÍAS VERDES

The objective of "Greenways Outdoor" project is the creation and transnational promotion of an outdoor tourism product linked to European greenways, and on the improvement of the capacity building of SMEs located in their vicinity, so that they can tailor their services to the demands of customers and so become more

L'objectif du projet "Voies vertes Outdoor" est la création et la promotion transnationale d'un produit de tourisme de plein air lié à des voies vertes européennes et une amélioration dans le renforcement des capacités des PME situées aux alentours afin qu'elles puissent adapter leurs services aux demandes des clients et donc devenir plus

El objetivo del proyecto de "Vías Verdes Outdoor" es la creación y promoción transnacional de producto turístico de aire libre vinculado a las Vías Verdes europeas y la mejora de las capacidades de las PYMEs localizadas en su entorno. La finalidad es que estas empresas puedan adaptar sus servicios a las demandas de los clientes y ser más

Co-funded by the COSME programme of the European Union

Greenways Outdoor - Acciones y actividades :

Diversificar la oferta turística.

- ✓ **Catalogo europeo de product turístico vinculado a las vías verdes / ecopistas, y de servicios profesionales;**
- ✓ **Encuentros con PYMES y utilización de tutorials web;**
- ✓ **Eventos deportivos; Fam/Press trip;**
- ✓ **Encuentros publico-privado y con las partes involucradas (“stakeholders”).**

Mejor información y Marketing

- ✓ **Participación en ferias comerciales;**
- ✓ **Workshop, visita tecnica y Fam/pres trip;**
- ✓ **10 consejos clave para el marketing y la comunicación;**
- ✓ **Visitas inversas, workshops sobre Greenways.**

Promoción y Comunicación

- ✓ **Workshops y conferencias;**
- ✓ **Premios y campañas**
 - ✓ **Mejor product turístico;**
 - ✓ **Concurso europeo de fotos;**
- ✓ **Nueva website, orientacion a viajes;**
- ✓ **Social media.**

“Greenways Outdoor”

Co-funded by the COSME programme
of the European Union

- ✓ El Proyecto tiene que tener un impacto real en el territorio y en la competitividad de las PYMES en el entorno de las vías verdes.
- ✓ Implicación de las partes involucradas (imprescindible!).
- ✓ Cooperación publico-privada.
- ✓ Cooperación de :
 - ✓ Distintos departamentos de las Administraciones Publicas y de las
 - ✓ PYMES, para responder mejor a las exigencias del mercado.

ECOPISTA DO DÃO À CONQUISTA DE NOVOS MERCADOS TURÍSTICOS

A CIM Viseu Dão Lafões, à semelhança do ano anterior, participou em mais uma edição da Feira “Fiets & Wandelbeurs”, que teve lugar em Utrecht, na Holanda.

Trata-se de uma feira direccionada para o Turismo Activo, considerada a maior e mais influente feira da Europa em produtos de *trekking* e *biking*.

Este ano, a CIM Viseu Dão Lafões marcou presença num stand conjunto com os parceiros do projeto europeu *Greenways Outdoor* [Rutas Pangea, *Ostbelgien Eifel-Ardennen*, *Vias Verdes*

- *Fundación de los Ferrocarriles Españoles e Vía Verde De La Sierra Cádiz-Sevilla*], onde elementos como o pedestrianismo e os passeios de bicicleta na *Ecopista do Dão* voltaram a ter destaque, uma vez que se tratam de atividades que contribuem para a afirmação de Viseu Dão Lafões junto do mercado Holandês.

EUROPEAN MOBILITY WEEK
16-22 SEPTEMBER 2016

- **Campaña en la semana europea de la movilidad.**

Benefits of walking & cycling

Research has proven that employees who undertake sufficient physical exercise are healthier, perform better and take less sick leave each year. Activities can include to:

- Invite health insurance organisations to provide information about health benefits of physical activity, health risks and the economic costs of physical inactivity, how to integrate physical activity into one's daily routine, etc.
- Organise a discussion with doctors to highlight the negative impact of transport on health.
- Ask a hospital/doctor to offer 'health checks' (blood pressure, circulation, weight, bone mass, etc.) to encourage health awareness.
- Get sport associations to present their activities.
- Invite sport associations, businesses, schools, etc. to participate in contests, races or relays.
- Request the relevant organisations to install playgrounds encouraging physical exercise and agility amongst children.
- Ask 'health walk' groups to hold presentations encouraging walking.
- The Health Minister/deputy mayor responsible for health issues should join a 'health walk'.
- Present measures already implemented or being planned to improve the situation of pedestrians and cyclists (traffic calming, pedestrian zones, direct/extra routes or network for cyclists and pedestrians, etc.).
- Organise fitness training (in conjunction with health insurance companies).

Greenways

A Greenway is a 'communication route reserved exclusively for non-motorised journeys, developed in an integrated manner, which enhances both the environment and quality of life of the surrounding area. These routes should meet satisfactory standards of width, gradient, and surface condition to ensure that they are both user-friendly and low-risk for users of all abilities.' (Lille Declaration, 12 September 2000)

The aim is to encourage organisations to implement Greenways and the general public to discover them.

General awareness raising

- Organise walks/bicycle trips or picnics on existing and unofficial (with precautions) Greenways accompanied by local representatives. Various interest groups can profit from Greenways as a meeting point:
 - People with reduced mobility, the elderly, etc.
 - Artists, athletes, politicians, local personalities, etc.
 - Second-hand bikes retailers.
 - Media and journalists.
- Use a Greenway as an open-air classroom for maths, geography, local history, natural environment lessons.
- Organise a clean-up of Greenways by volunteers.

Algunas conclusiones sobre vías verdes y turismo sostenible

- Las vías verdes se extienden crecientemente en Europa
- Son una iniciativa de turismo sostenible de la Unión Europea
- La creación y promoción de las **vías verdes contribuye** de forma destacada a la **diversificación** de la **economía** en áreas rurales, atrayendo **visitantes**; también se utilizan por la **población local**.
- El **impacto económico** del turismo es **notable** en un número creciente de vías verdes.

Algunas conclusiones sobre vías verdes y turismo sostenible

- Señalización y servicios en el entorno son imprescindibles para generar producto turístico.
- Integración de vías verdes en itinerarios más largos.
- Continuidad mas allá de los límites administrativos.
- Implicación de todos los actores públicos y privados.
- Oportunidades de financiación europea

Greenways Outdoor creación y promoción de producto turístico europeo

✓ Hay vías verdes que ya pueden (y tienen) dar el salto a la creación de producto turístico.

Otras vías verdes aún tienen un largo camino por recorrer, pero cuentan con referencias que les sirvan de guía.

✓ **Greenways Outdoor** (y los proyectos precedentes) va a ayudar a que estas historias de éxito y las condiciones que lo han hecho posible sirvan de inspiración para emprender nuevas iniciativas de éxito en otros países europeos.

¿Como colaborar y beneficiarse del proyecto?

- ✓ **Utiliza el material disponible** – guía, tutoriales, presentaciones de los workshops -, te ayudarán a crear producto turístico.
- ✓ **Da a conocer tu empresa:** invinos tus productos y servicios para integrarlos en el Catalogo europeo a (info@aevv-egwa.org).
- ✓ **Colabora con otras empresas** de tu ámbito para ofrecer servicios comunes.
 - ✓ Participa en las campañas organizadas en el ambito del proyecto.
 - ✓ Siguenos en FB y comparte los «posts».

Algunas recomendaciones

- ✓ Aprovechar la participación en ferias de las cámaras municipales, “región” ...para difundir vuestros mapas y folletos.
- ✓ Colaboración público-público: las distintas administraciones en el territorio – municipal, comarcal-reginal deben llevar a cabo una acción conjunta y coordinada.

Muito obrigada pela sua atenção!
