The best way to find out about European greenways

An essential source of information to discover thousands of kilometres of non-motorized routes in Europe. They are easy, safe, accessible and really attractive trails.

You will find information describing the greenways, maps, photos, videos, news and links to European greenway websites.

Search greenways by country, region or type of user and choose your favourite routes for holidays, excursions or even daily use.

They are perfect for cyclists, hikers, families or mobility impaired people, for whom greenways are a great way to get closer to nature.

The European Greenways Observatory helps you discover the wealth and diversity of European greenways in:
