# INTRODUCTION

The “**Greenways Outdoor**” project consists of the creation and transnational promotion of an outdoor tourism product linked to European greenways, and the capacity building of SMEs located in their vicinity so that they can tailor their services to the demands of customers and so become more competitive.

The project’s general objective is the diversification of the tourism offer in Europe by generating new, greenway-related products and capitalizing on existing ones, thereby improving the competitiveness of the European greenway-based tourism industry, together with the joint promotion of greenways tourism products to make them better known internationally and so attract more visitors. The aim is also to strengthen public and private cooperation to facilitate the creation and promotion of the greenways tourism product.

In the framework of this project, the Spanish Railways Foundation (FFE) in collaboration with European Greenways Association (EGWA) has prepared this tourism product catalogue on greenways. The partners of the project have also participated in its creation. Products generated in the course of the project have been included as well other pre-existing greenway tourism products.

The new greenway-related tourism product packages generated in the framework of “Greenways Outdoor” have been produced using the tourist product methodology developed in the previous project, “Greenways Product”, co-funded by the European Commission’s COSME Programme and coordinated by FFE. The catalogue resulting from this project already included some initial offers on greenways.

The information came directly from the tourism providers who responded to the call to contribute to the catalogue by providing their offers on greenways, and from other products already available on-line selected by the team that produced the catalogue. An extra effort has been made to include itineraries of recognized standing from other European countries not represented in the project, especially greenways that have won the European Greenways Award.

**The catalogue includes 137 packages from 15 European countries.**

Current tourism packages offer greenways as a main offer either on their own or in combination with other cycle routes (with shared traffic). But in all cases all the products include greenways, and the offers are aimed at a large target of potential customers.

These tourism packages include information about the actual greenway, the services offered (accommodation, hospitality), any complementary services (bike rental, baggage transport, etc.), cultural resources and activities in the area (visits to museums, outdoor activities, etc.), and a guide to reference prices.

**We hope that this catalogue will help develop sustainable tourism on and around European greenways and encourage all kinds of "outdoor" tourists to discover and enjoy the diversity of Europe through its greenways, thanks to the extensive existing offer and the new and attractive products that will no doubt be available in the future.**

Co-funded by the COSME programme  
of the European Union

**Greenways** are independent non-motorized routes, mainly using disused railways and canal towpaths. Safe, accessible and very attractive, they provide easy access to areas of outstanding natural beauty (e.g. mountainous areas, by way of tunnels and viaducts). There are thousands of kilometres of greenways in Europe with a great potential for development, and they are a very useful tool for the development of tourism in rural areas.

The "Greenways Outdoor" project is developed under the COSME program of the European Union for the competitiveness of Small and Medium Enterprises (SMEs). Coordinated by the European Greenways Association, the project is being implemented by 10 partners from five countries.

- European Greenways Association (Coordinator, European level)
- Spanish Railway Foundation (Spain)
- Via Verde de la Sierra Foundation (Spain)
- Vidzemes Tourism Association (Latvia)
- Comunidade Intermunicipal Viseu Dão Lafões (Portugal)
- Gruppo di Azione Locale (GAL) Polesine Delta del Po (Italy)
- Tourismusagentur Ostbelgien (Belgium)
- Rutas Pangea (Spain) - SMEs
- Diversport (Spain) - SMEs
- Dxocio (Spain) - SMEs

With a budget totalling 320,000 euros and a period of completion of 18 months, the "Greenways Outdoor" project was launched in June 2015 and will end in November 2016.

Further information about greenways and the project is available at [www.aevv-egwa.org](http://www.aevv-egwa.org) and [www.greenwaysoutdoor.org](http://www.greenwaysoutdoor.org)

**Description of the offer**

Three countries in one week between Italy, Slovenia and Croatia. The history of the ancient Republic of Venice, the so called “Serenissima” Republic, provides the background to the entire trip. From the wonderful Venice, you will cycle through the beaches on the coastline up to the plain of Friuli and then continue with the fascinating town of Trieste, finishing with the beautiful Istrian coast, a sight which is truly to be treasured.

Description:

**Day 1. Mestre/Venice**

Individual arrival in Mestre (the mainland of Venice). The city of Venice will captivate you with its splendour, acknowledged worldwide

**Day 2. Mestre – Jesolo/Caorle/seacoast (40/65 km).**

After a few kilometres by bike, you take the ferry and then the vaporetto, passing in front of Piazza San Marco. Then you will reach Punta Sabbioni, the furthest south area of the Adriatic coast, which is north of Venice. From here you cycle along the stunning seacoast, with various opportunities for a refreshing bath in the sea. The overnight will be in one of the places along this famous coastline.

**Day 3. Jesolo/Caorle/seacoast – Portogruaro (65/40 km).**

Leaving the sea behind you, you will head north towards the Julian Alps. You will be passing through an area with a multitude of “Valli da pesca” (stretches of lagoon enclosed by earthen dikes where extensive fish farming is practised) and “casoni” (constructions used by fishermen in the past during the fishing season). Afterwards you will go to the town of Portogruaro, one of the main centres in the period of the “Serenissima Republic of Venice”, which is still impressive even today with its glorious “Palazzi” or “palaces”.

**Day 4. Portogruaro – Palmanova/Aquileia (60/70 km).**

The trip can be shortened of 20 km by taking a train from Portogruaro to Latisana. You will spend the day between the region of Veneto and Friuli Venezia Giulia, passing through an area abundant in water and history, among rivers, canals and ancient Roman towns. Your destination will be Aquileia, with its Roman excavations, or Palmanova, named “the starry city” because from above the town resembles a 9-pointed star.

**Day 5. Palmanova/Aquileia – Trieste (70/50 km).**

The trip can be shortened of 30 km by taking a train at the end of the stage from Monfalcone to Trieste. You will once again

head towards the sea: the gulf of Trieste awaits you, with many possible stops along the way, such as Duino with its two castles, Sistiana with its characteristic bay and Miramare with its famous white castle built according to the wishes of Maximilian of Augsburg, situated in a beautiful park of more than 20 hectares in size. Just a few kilometres lie between you and Trieste, the ancient port of the Asburgic Empire, which has much to offer as regards attractions and history

**Day 6. Trieste – Piran/Portorož (45 km).**

After a few kilometres you will cross over into Slovenia, often cycling along cycle paths through famous holiday resorts such as Koper, first for a long period a Venetian and then Austrian town, and Piran, another important town which was ruled over for a long time by Venice. You then finally arrive in Portorož, a town renowned for its spa and bathing facilities.

**Day 7. Piran/Portorož – Porec (55 km).**

Cycling southwards, you will pass through the salt mines of Secovlje, a large Slovenian town with a humid environment, which is a key area as regards ornithology. Some kms later you will cross the Croatian border down along Istria, the Adriatic sea's largest peninsula. In the end you will reach Porec, the tourism capital of Croatia, with its Eufasian Basilica, which was declared Patrimony of Humanity by UNESCO in 1997.

**Day 8. Porec**

After breakfast, end of services. Possibility to book extra nights in Porec or return to Venice by boat (option).

## The old Ardèche steam train trail by bike: the "Dolce Via" – 8 days / 7 nights

**Region / Country:** Ródano-Alpes/France

### What does this offer include?

1. Accommodation is half-board, in 2 and 3 star hotels or 3 'épis' guest houses.
2. Detailed road-book and maps are provided
3. We provide technical and logistical support.
4. Baggage transfers are organised by us.
5. This holiday includes the return transfer from Les Ollières to Lamastre.

### Description of the offer

The trip begins with a ride along the route of the old steam train which used to link Lamastre with Le Cheylard through the mountains of the Ardèche department. Then, after going from one valley to the next, you cycle alongside the turbulent River Eyrieux. Numerous traces of the engineers' work remain, and the scenery is simply superb. It's a really different way to see the mountains of the Ardèche, the Boutières, and the typical Ardèche valleys, whilst giving new purpose to the superb railway heritage, today abandoned.

The route, with its gentle slopes, is ideal for cycle tourists. But as the paths are not surfaced, country bikes (hybrids) are recommended.\*

#### Description:

#### Day 1. Arrival in Lamastre.

Things to see: The Gorges of the river "Le Doux", chestnut orchards, busy market town.

#### Day 2. From Lamastre to Le Cheylard.

20.5 km with total uphill 270 metres. Level 2/5. Duration about 2hrs 45. From Lamastre you cycle along the path of the former rail track, now transformed into a foot- and cycle path. It takes you all the way to Le Cheylard. The first part rises gently towards Les Nonnières. It's generally fairly smooth but there are some stony sections. After the tunnel beneath Les Nonnières, the track becomes more even. All along the way you'll notice fine farms typical of the Ardeche department as well as impressive railway architecture. Dinner and night in 2 star hotel with pool.

#### Day 3. Around Le Cheylard.

A 15 km ride with total uphill 110metres. Level 2/5. Duration around 2hrs. A superb circuit with wonderful views. First you follow the former railtrack along the banks of the river Eyrieux. Gaining height progressively, you move into fine countryside made up of small fields and orchards. There is a variant available for those who wish: 25.5 km with total uphill 250 metres. Dinner and night at the hotel.

#### Day 4. From Le Cheylard to Saint Barthélémy le Meil.

20 km with total uphill 170 metres. Level 2/5. Duration around 2hrs 30. The morning is spent in the town of Le Cheylard. You may like to visit the "Arche des Métiers" the "Ark of trades"- industry science and technology as you have perhaps never seen them - in the centre of La Cheylard. (You will have received a token you can use for this visit.) In the afternoon you cycle to Saint Barthélémy le Meil, by following the river downstream. You'll see several watermills with millraces supplied by the river. And you might like to enjoy a dip in the pool of Saint Barthélémy le Meil (open 1st July - 31st August from 13.00 hours to 18.00hrs. Evening meal and night in B+B in a real farmhouse.

**Day 5. Around Saint Barthélémy le Meil.**

7,5km with total uphill 515 metres. Level 3/5. Duration about 3 hrs. 30. Today you go up to the plateau of Mézilhac. From there you can admire splendid views over the extinct volcanoes of Mont Mézenc and Le Gerbier des Joncs, both in the Massif Central mountain range. In fine dry weather you can see Mont Ventoux 150 km away and even the distant Mont Blanc. Dinner and night at the guesthouse.

**Day 6. From Saint Barthélémy le Meil to Les Ollières.**

18.7 km with total uphill 50 metres. Level 2/5. Duration around 2 hrs. You descend the Valley of the Eyrieux to come to the former railway track. This is certainly the wildest countryside traversed by the old railway. Sometimes the going is rough and you have to dismount and walk a little. Mouthwatering! Dinner and night in guesthouse with pool.

**Day 7 Around Les Ollières.**

A nice easy day to enjoy messing about by the river. Two activities are suggested: 1) a row down the river in a kayak from Les Ollières - a 4.5 km family-friendly paddle. For this you should contact Eyrieux Sports, shop opposite the Post Office ("La Poste"). Ring 00 33 686 575 631 if using an overseas mobile or from a French phone, 06 86 57 56 31. Children must be able to swim. 2) A bike ride to a very nice designated bathing spot. Dinner and night at the guesthouse.

**Day 8 Departure (taxi back to Lamastre).**

Departure after breakfast.

## A romantic tour of the Rhine & Moselle – 7 days / 6 nights

	<b>Region / Country:</b> Rhine Valley/Germany
<b>What does this offer include?</b>	<b>Description of the offer</b>
<ol style="list-style-type: none"> <li>1. Accommodation in selected hotels and vineyard guesthouses (3* and 4*)</li> <li>2. Breakfast buffet or large continental breakfast</li> <li>3. 1 x Rhine riverboat cruise Rudesheim - St. Goar</li> <li>4. 1 x Moselle riverboat cruise Koblenz - Cochem (9 days/8 nights-tour)</li> <li>5. Luggage transfers</li> <li>6. Well-thought-out route with GPS tracking, detailed travel documents, route descriptions, sights and attractions</li> <li>7. Signposted routes</li> </ol>	<p>Cycling into the heart of German wine country is all the better for the near mediterranean climate that makes it all possible. The names of the regions – Palatinate, Rheinhessen, Rheingau and Moselle – should be familiar to connoisseurs, while the outstanding wines they produce can be enjoyed in the ubiquitous vintners' taverns.</p> <p><u>Description:</u></p> <p><b><u>Day 1. Speyer (day of arrival)</u></b> With the imperial cathedral, episcopal residence and the Old Gate, Speyer has retained much of its medieval charm, and boasts numerous attractions such as the Jewish baths and the Old Mint. The day ends in style in a traditional wine tavern or beer garden on the Rhine terraces.</p> <p><b><u>Day 2. Speyer - Worms (approx. 60 km)</u></b> From the Rhine you head to Schwetzingen, whose palace – a summer residence of the Palatinate Electors – boasts one of the finest parks of the 17th/18th century. Next stop is the old Roman town of Ladenburg with its charming medieval architecture. You then continue across the Rhineland Plain to Worms, a former centre of imperial power, to see its 12th-century cathedral, statue of Martin Luther and the oldest surviving Jewish cemetery in Europe.</p> <p><b><u>Day 3. Worms - Oppenheim (approx. 55km)</u></b> Another pleasant day cycling beside the Rhine, including picturesque stretches along the Old Rhine (the original course of the river). Oppenheim is your destination, renowned for its Gothic architecture and vineyards. Here, you can explore the Oppenheim labyrinth, the "town beneath the town", and learn all about the history of Martin Luther.</p> <p><b><u>Day 4. Oppenheim - Mainz (approx. 30km)</u></b> From Oppenheim, it's just a few kilometres to Mainz, where you can explore the imperial history of St. Martin's Cathedral, admire the electoral palace and visit the Gutenberg Museum.</p> <p><b><u>Day 5. Mainz - Rudesheim (approx. 30km)</u></b> The route continues to Rudesheim on a section themed around riesling wine. Eberbach Abbey is an interesting attraction along the way.</p> <p><b><u>Day 6. Rudesheim - Koblenz (approx. 30-70km)</u></b> After an approx. 30km riverboat cruise to St. Goar that lasts just under 90 minutes, your day of cycling begins beyond the famous Loreley rock. The route continues through the Upper Middle Rhine Valley, passing pretty little towns such as Boppard and Rhens as well as the many castles that characterise the region. It ends in Koblenz, whose medieval centre is fronted by the Deutsches Eck (German Corner), where the Moselle joins the Rhine.</p>

**Description of the offer**

Description:

**Day 1: Passau - gorgeous city at the confluence of three rivers.**

Your guide will pick you up from Munich and take you to Passau. Any meeting place in Munich is possible. Later that day, you will meet the other group members at a Bavarian restaurant. Here, your guides will have organised a table in the beer garden.

**Day 2: Guided walk through Passau, start cycling**

You follow your guide through Passau's historic landmarks and past its tourist attractions. You also pass the confluence point where three differently coloured rivers merge – the blue Danube, the green Inn and the black Ilz. As on every day, the route follows dedicated cycle paths and less busy back roads, mostly directly alongside the Danube. (26 miles/41 km, lunch on your own today)

**Day 3: Cycling through the Donauleiten nature reserve to Linz**

Cycling across the Donauleiten nature reserve is the first highlight today. Later on, we cross the Danube at the famous Schloggen bend, where the river appears to turn 180 degrees. We will reach Linz, today's destination, just in time to take a guided walk through the city.

**Day 4: On silent back roads through peaceful countryside**

Back on the cycle path we follow the Danube through the Machland area. We will cycle to Grein today. The small town is home to Austria's first theatre, which is still in use. From Greinburg Castle, take in a view which overlooks the town, as well as tomorrow's route towards Melk. (38 miles/60 km, picnic incl.)

**Day 5: Guided tour at Melk Abbey**

We cross the Danube in the morning and cycle down the river along the southern bank. After three hours we arrive at where today's picnic awaits. From here it is not much further to Melk, famous for Melk Abbey.

**Day 6: Exploring the vineyards of the Wachau: cycling, wine tasting, asking & listening**

Today is the day where we enter the vineyards of the Wachau region. In Dürnstein you will have the chance to taste local wines on a tour through one of the biggest and most renowned estates in Austria. Enjoy! In the evening, we will take a ferry to Vienna for the last leg of our journey. (19 miles/31 km, picnic incl.)

**Day 7: Departure from Vienna, option to extend your stay**

3. Accommodation in 3\* hotels, sometimes in 4\* hotels.
4. Breakfast buffet
5. Welcome briefing in English
6. Luggage transportation
7. Girolibero Greens Cycling Guide + Roadbook + Maps
8. Ferry transfer on day 2 (bike not included, approx. 4€). Except departure of 16<sup>th</sup> of July, when the ferry boat transfer will be replaced by a private transfer.

Three countries in one week between Italy, Slovenia and Croatia. The history of the ancient Republic of Venice, the so called “Serenissima” Republic, provides the background to the entire trip. From the wonderful Venice, you will cycle through the beaches on the coastline up to the plain of Friuli and then continue with the fascinating town of Trieste, finishing with the beautiful Istrian coast, a sight which is truly to be treasured.

Description:

**Day 1. Mestre/Venice**

Individual arrival in Mestre (the mainland of Venice). The city of Venice will captivate you with its splendour, acknowledged worldwide

**Day 2. Mestre – Jesolo/Caorle/seacoast (40/65 km).**

After a few kilometres by bike, you take the ferry and then the vaporetto, passing in front of Piazza San Marco. Then you will reach Punta Sabbioni, the furthest south area of the Adriatic coast, which is north of Venice. From here you cycle along the stunning seacoast, with various opportunities for a refreshing bath in the sea. The overnight will be in one of the places along this famous coastline.

**Day 3. Jesolo/Caorle/seacoast – Portogruaro (65/40 km).**

Leaving the sea behind you, you will head north towards the Julian Alps. You will be passing through an area with a multitude of “Valli da pesca” (stretches of lagoon enclosed by earthen dikes where extensive fish farming is practised) and “casoni” (constructions used by fishermen in the past during the fishing season). Afterwards you will go to the town of Portogruaro, one of the main centres in the period of the “Serenissima Republic of Venice”, which is still impressive even today with its glorious “Palazzi” or “palaces”.

**Day 4. Portogruaro – Palmanova/Aquileia (60/70 km).**

The trip can be shortened of 20 km by taking a train from Portogruaro to Latisana. You will spend the day between the region of Veneto and Friuli Venezia Giulia, passing through an area abundant in water and history, among rivers, canals and ancient Roman towns. Your destination will be Aquileia, with its Roman excavations, or Palmanova, named “the starry city” because from above the town resembles a 9-pointed star.

**Day 5. Palmanova/Aquileia – Trieste (70/50 km).**

The trip can be shortened of 30 km by taking a train at the end of the stage from Monfalcone to Trieste. You will once again head towards the sea: the gulf of Trieste awaits you, with many

possible stops along the way, such as Duino with its two castles, Sistiana with its characteristic bay and Miramare with its famous white castle built according to the wishes of Maximilian of Augsburg, situated in a beautiful park of more than 20 hectares in size. Just a few kilometres lie between you and Trieste, the ancient port of the Asburgic Empire, which has much to offer as regards attractions and history

**Day 6. Trieste – Piran/Portorož (45 km).**

After a few kilometres you will cross over into Slovenia, often cycling along cycle paths through famous holiday resorts such as Koper, first for a long period a Venetian and then Austrian town, and Piran, another important town which was ruled over for a long time by Venice. You then finally arrive in Portorož, a town renowned for its spa and bathing facilities.

**Day 7. Piran/Portorož – Porec (55 km).**

Cycling southwards, you will pass through the salt mines of Secovlje, a large Slovenian town with a humid environment, which is a key area as regards ornithology. Some kms later you will cross the Croatian border down along Istria, the Adriatic sea's largest peninsula. In the end you will reach Porec, the tourism capital of Croatia, with its Eufasian Basilica, which was declared Patrimony of Humanity by UNESCO in 1997.

**Day 8. Porec**

After breakfast, end of services. Possibility to book extra nights in Porec or return to Venice by boat (option).

## SLOVENIA

### The lands of the Ancient Republic of Venice 8 days / 7 nights

**Greenway name:** Parenzana Greenway

**Region / Country:** Croatia, Slovenia & Italy

**What does this offer include?**

**Description of the offer**

1. Self-guided tour
2. 7 overnights
3. Accommodation in 3\* hotels, sometimes in 4\* hotels.
4. Breakfast buffet
5. Welcome briefing in English
6. Luggage transportation
7. Girolibero Greens Cycling Guide + Roadbook + Maps
8. Ferry transfer on day 2 (bike not included, approx. 4€). Except departure of 16<sup>th</sup> of July, when the ferry boat transfer will be replaced by a private transfer.

Three countries in one week between Italy, Slovenia and Croatia. The history of the ancient Republic of Venice, the so called “Serenissima” Republic, provides the background to the entire trip. From the wonderful Venice, you will cycle through the beaches on the coastline up to the plain of Friuli and then continue with the fascinating town of Trieste, finishing with the beautiful Istrian coast, a sight which is truly to be treasured.

Description:

**Day 1. Mestre/Venice**

Individual arrival in Mestre (the mainland of Venice). The city of Venice will captivate you with its splendour, acknowledged worldwide

**Day 2. Mestre – Jesolo/Caorle/seacoast (40/65 km).**

After a few kilometres by bike, you take the ferry and then the vaporetto, passing in front of Piazza San Marco. Then you will reach Punta Sabbioni, the furthest south area of the Adriatic coast, which is north of Venice. From here you cycle along the stunning seacoast, with various opportunities for a refreshing bath in the sea. The overnight will be in one of the places along this famous coastline.

**Day 3. Jesolo/Caorle/seacoast – Portogruaro (65/40 km).**

Leaving the sea behind you, you will head north towards the Julian Alps. You will be passing through an area with a multitude of “Valli da pesca” (stretches of lagoon enclosed by earthen dikes where extensive fish farming is practised) and “casoni” (constructions used by fishermen in the past during the fishing season). Afterwards you will go to the town of Portogruaro, one of the main centres in the period of the “Serenissima Republic of Venice”, which is still impressive even today with its glorious “Palazzi” or “palaces”.

**Day 4. Portogruaro – Palmanova/Aquileia (60/70 km).**

The trip can be shortened of 20 km by taking a train from Portogruaro to Latisana. You will spend the day between the region of Veneto and Friuli Venezia Giulia, passing through an area abundant in water and history, among rivers, canals and ancient Roman towns. Your destination will be Aquileia, with its Roman excavations, or Palmanova, named “the starry city” because from above the town resembles a 9-pointed star.

**Day 5. Palmanova/Aquileia – Trieste (70/50 km).**

The trip can be shortened of 30 km by taking a train at the end of the stage from Monfalcone to Trieste. You will once again head towards the sea: the gulf of Trieste awaits you, with many

possible stops along the way, such as Duino with its two castles, Sistiana with its characteristic bay and Miramare with its famous white castle built according to the wishes of Maximilian of Augsburg, situated in a beautiful park of more than 20 hectares in size. Just a few kilometres lie between you and Trieste, the ancient port of the Asburgic Empire, which has much to offer as regards attractions and history

**Day 6. Trieste – Piran/Portorož (45 km).**

After a few kilometres you will cross over into Slovenia, often cycling along cycle paths through famous holiday resorts such as Koper, first for a long period a Venetian and then Austrian town, and Piran, another important town which was ruled over for a long time by Venice. You then finally arrive in Portorož, a town renowned for its spa and bathing facilities.

**Day 7. Piran/Portorož – Porec (55 km).**

Cycling southwards, you will pass through the salt mines of Secovlje, a large Slovenian town with a humid environment, which is a key area as regards ornithology. Some kms later you will cross the Croatian border down along Istria, the Adriatic sea's largest peninsula. In the end you will reach Porec, the tourism capital of Croatia, with its Eufasian Basilica, which was declared Patrimony of Humanity by UNESCO in 1997.

**Day 8. Porec**

After breakfast, end of services. Possibility to book extra nights in Porec or return to Venice by boat (option).

## The best of Valencian region

<b>Xixarra, Alcoi, Safor, Serpis Greenways: Different sections of disused railway lines and other spaces</b>		<b>Region / Country: Valencia (Spain)</b>		
<b>What does this offer include?</b>		<b>Description of the offer</b>

This diversity is what you'll experience on a route which weaves together the rugged, mountainous terrain of the interior with that of the contrasting Mediterranean coastal plain.</p> <p>A considerable part of this route takes in the famous and tranquil, green pathway that winds its way to the sea. You'll pedal your way past fields, groves of fruit trees, vineyards and natural enclaves of exceptional beauty.</p> <p><b>Nature of the route</b> has been designed to take advantage, as far as possible, of downhill slopes along valleys that start in the interior and wind their way towards coastal plains and the sea. The route hence does not demand a high level of fitness; notwithstanding this, we have different alternatives that can either shorten or lengthen a day's ride.</p> <p>Two thirds of the route goes along the <b>former railway line</b> which is most of it traffic free (<b>84 kms</b>). For the others we have chosen small quiet roads where cars are seldom seen.</p> <p>Approx. 221 - 288 kilometres by bike</p>

#### **Day 5. 25 km**
